

Drink a beer with me now

Beer is our reality

This is Germany

Drink a beer with me now

Drink a beer with me now

Beer is our reality

This is Germany

If you`re not on time,
in Germany aren`t you fine

The only thing we love
more than punctuality
is our German personality

This is Germany

We love our beer

Radler is our biggest fear
after every intoxication
we stand chattered at the station
and wait for the train
looking like we have no brain

This is Germany

And after work,
when we come home
our life is the epitome
of a German masterwork

This is Germany

Drink a beer with me now

Drink a beer with me now

Beer is our reality

This is Germany
